

U.I. Lapp GmbH	<h1>DATASHEET</h1>	
	LANmark-6 RJ45 Patchcord	CE6151 14.11.2013

Halogen-free

Interference signals

Product features

10Gigabit Ethernet

The patchcord fully complies to Category 6, maximising the channel performance and exceeding the requirements of ISO/IEC 11801:2002 as part of a LANmark-6 wiring of Class E. This offers an improved data transmission rates and enables the inclusion of consolidation points for maximum system flexibility.

Halogen-free, flame-retardant sheath with lower smoke development

Screened version

Remark

Unless specified otherwise, the shown product values are nominal values. Detailed values (e.g. tolerances) are available upon request.

Photographs are not to scale and do not represent detailed images of the respective products.
