

Philips  
Air humidifier

Safe & clean  
NanoCloud technology

HU4706/11

## Healthy air always

with NanoCloud humidification technology

Philips air humidifier fights dry air with maximum efficiency and hygiene. It has 99% less bacterial spreading compared with ultrasonic humidifiers. No white dust\* or wet desktop.

### Healthy Air

- Hygienically safer, no white dust\* and no wet desktop

### Always

- Evenly distributes humidified air around you
- Auto shut down when humidifier runs out of water

### Simplicity

- Choose between silent and standard humidification
- Modern design gives you best-in-class cleanability
- Easy-to-fill water tank

**PHILIPS**

# Highlights

## NanoCloud technology

This Philips air humidifier offers a three-stage advanced evaporation system with NanoCloud technology. Stage 1: the absorbent filter on the humidifier catches big particles such as human/pet hair and dust when drawing in the dry air. Stage 2: the advanced evaporation system with NanoCloud technology humidifies the air by adding water molecules to the air and does not carry bacteria or scale. Stage 3: healthy air gets blown out of the humidifier at a constant speed, delivering comfortable, healthy humid air without formation of water mist in your home.

## Healthy air protect lock

When the water tank is empty and needs to be refilled, the healthy air protect lock shuts off the humidifier and a red indicator lights up telling you that the humidifier has stopped.

## Dual humidification speed

Choose between silent and standard humidification to allow maximum flexibility.

## Comfortable humidity

Evenly distributes humidified air around you. Lets you breathe healthy humidified air at home and at the office providing comfort for your skin.

## Easy-to-clean design

Cleaning humidifiers inside and out – especially the water tank – has never been easier.

## Easy-to-fill water tank

2 ways of filling water tank: you can bring water in a cup and fill the tank locally after removing the tank's top cover or you can take the water tank to the closest tap in your home.

# Specifications

## Design specifications

- Color(s): White

## Technical specifications

- Wattage: 14 W
- Humidification capacity: 150 ml/h
- Operation time: 8 hour(s)
- Water tank capacity: 1.3 l
- Noise level: 27 - 40 dB
- Voltage: 220-240 V

## Weight and dimensions

- Product weight: 1.36 kg
- F-box weight (incl. product): 1.72 kg
- Product dimensions (W x D x H): 162 x 198 x 308 mm
- F-box dimensions (W x D x H): 355 x 225 x 225 mm

## Logistic data

- Country of Origin: China

## Replacement

- Humidification filter: Replace HU4136 every 3 months
