Type DS spacer posts made from tempered insulating material are used so that it is possible to switch of individual current paths by removing the fixing screws. The cross-connection current is then fed via the fixing screw. We therefore prescribe the use of screws made from CuNi 60 (a copper-nickel alloy). An end bracket with screw holder serves to store any fixing screws that have been removed.

General ordering data

Type	KISC M3X15/6 SAK2.5 CU5
Order No.	0377200000
Version	SAK Series, Accessories, Fixing screw, for busbars, 15 mm
GTIN (EAN)	4008190006389
Qty.	100 pc(s).
