The Cabtite KEL-DP feed-through plate system offers an affordable alternative to standard cable glands. It is ideal when multiple cables must be connected within an installation housing and when IP54 protection is adequate. Weidmüller offers this system with round and rectangular cable entry plates. The plates are simply pressed into the standard cutouts. The position of the system is centred by means of integrated spring-loaded pins. This system offers several advantages: - it has a very high component density - it is inexpensive - installation is quick, simple and tool-free - it has a very low height profile.

**General ordering data**

Type	CABTITE KEL-DP 50/20/2
Order No.	<a href="#">1040240000</a>
Version	Cable entry strips, Elastomer
GTIN (EAN)	4032248768936
Qty.	10 pc(s).
